How to Talk to Your Child About Sexuality

Have you found yourself unable to use words that refer to genitalia? Unable to explain how the human body works? This presentation will unite us across caregiver titles (e.g., parent, teacher, psychologist, aide, etc.) and present a possible framework for conceptualizing AND explaining topics that include the human body and sexuality, including contraception and hygiene. Participants will also leave with a list of helpful resources in the fields of sexuality and developmental disabilities.
